## COMPLETE PLANS AVAILABLE

Complete working plans, specifications and mill lists are available for every design shown in any of the GARLINGHOUSE plan books. The plans are complete and ready for the builder to start construction of the home. The moderate price of these plan sets represents your best investment when building, since you know in advance what you are getting, thus avoiding misunderstanding.

**THE PLANS, SPECIFICATIONS, LUMBER AND MILL LISTS** as we have them made up for the designs in our books are sufficient and further details are not needed by any competent builder.

**MINOR ALTERATIONS CAN BE MADE BY BUILDERS**—It is impractical to change our tracings to show alterations, but minor alterations in design, material substitutions, etc., can be made by any competent builder without going to the expense of making special plans, which usually cost several times the price of our stock plans.

Complete plan sets when ordered will be mailed by parcel post (or air mail anywhere in U. S. if 75c per plan additional is included) within one day after your order has been received by The L. F. Garlinghouse Company.

**TO OBTAIN COST ESTIMATES**—The square footage is given for each plan to assist in figuring estimates. An estimate of what it will cost to erect any house illustrated in any of our books, in your locality, may be obtained by consulting your local builder.

**ALL PLANS SENT ON MONEY BACK GUARANTEE**—All Garlinghouse Plans are sent on a "Money Back If You're Not Satisfied" Guarantee. You have five full days after receiving the plans to study them over and to decide if they will serve your purpose. Plans which are not satisfactory may be returned for prompt exchange or refund.

## ORDER YOUR PLANS THIS SIMPLE, EASY WAY!

**USE THE HANDY ORDER BLANK ATTACHED!** Or just send us your name and address with the plan number from the book and the number of sets you want along with your remittance and we'll have them in the mail within 24 hours after receipt of your order. Garlinghouse plans are complete and the house can be constructed from only one set of plans. However, in most cases, it is wise to include three or four extra sets in your order—one for the builder, a set for your city building department, a set or two for financing, if a loan is required, and of course, you will want a set for yourself to check on the construction as it progresses. Here's what you get:

**PLANS**—The complete working plans consist of prints of all four elevations, basement and all floor plans and details showing built-in features and intricate parts, all drawn to a scale of not less than one-fourth inch to one foot. Also, a plot plan in blank to be filled locally.

**SPECIFICATIONS**—The specification lists in detail (to be filled in by

you and your builder) the construction of the house from the excavation to the final decoration.

**LUMBER AND MILL LISTS**—The lumber and mill lists consist of an itemized list of lumber and mill materials needed to construct the building and state where each item should be used.

**No. 9566**—This attractive home represents the newest in design for growing young families. Housing four bedrooms, this expertly designed traditional style home is planned to give families maximum floor space at a reasonable cost. A handsome entry design and well proportioned front gives the exterior of this fine home an appearance of good taste and expert styling. The two entertainment centers, living room and family room, have purposely been widely separated to enable activities in both rooms at the same time. Two full baths are provided in the bedroom area and a half bath is located at the rear of the family room. The terrace behind the garage and breezeway is attractively roofed with open exposed joists. The kitchen is well equipped with a built-in range and oven, space for a washer and dryer and a breakfast area. Notice the excellent traffic pattern provided by the foyer and center hall.

**No. 9018**—Here it is—a long, low and rambling ranch house that is certainly a beauty. The eye catching exterior is outstanding and when combined with the floor plan shown here gives the answer as to why the ranch house is so popular. Note the excellent window treatment, the clever use of a planter at the entrance, the large rooms and the modern kitchen with dining bar, and the other features too numerous to mention.

**No. 9570**—Here's a four bedroom house for a large family that wants something a little different but still practical. The floor plan layout is excellent. The foyer and center hall channels traffic to every room in the house. The family room is near the kitchen and front entrance. Sliding glass doors in the family room open onto the front terrace. The half bath is conveniently located for easy access from both family room and kitchen. The kitchen has plenty of built-in cabinets as well as a built-in range and oven. Eating space is provided in the kitchen but a large separate dining room is also included. The master bedroom is very nice with two large closets and a private bathroom. A large basement is provided for storage space, utilities, recreation room, etc.

**No. 9572**—This ranch house is picture pretty but as practical and livable as it can be. The foyer and center hall takes you directly to the bedrooms, bath, kitchen and living room. Much emphasis has been placed on the family room. It has sliding glass doors which open onto the patio in front and the terrace at the rear. The patio floor is flagstone and the terrace is scored concrete. The master bedroom has its own complete bath and dressing area with dressing table. Notice the three large closets in the master bedroom, each over five feet long. The other bedroom closets are seven feet long. The main bath contains both tub and separate shower. Eating space is provided in the kitchen as well as the dining room.

# THERE IS A DIFFERENCE

Since cleaning takes about 75% of all window maintenance time—there really aren't *any* maintenance-free windows—wood or metal. But removability *does* make the big difference, because R·O·W Removable Wood windows can be washed safely, inside the home, in half the time.

Wood windows are vastly superior to metal units in insulating against outside cold or heat. R·O·W Removable Wood Windows are, in addition, always held weather-tight by the same springs which permit instant removal of sash for cleaning or painting.

**COMPLETE PLANS AVAILABLE**

Garlinghouse plans are very complete, ready for your builder to begin construction immediately. They are drawn in accord with FHA and VA requirements, subject of course to local interpretations. The working drawings are liberally dimensioned. They contain drawings and notes designating the location and type of materials. With these plans, your builder can estimate accurately the cost of building the house in your

area, then of course use them for the actual construction of your home.

When you order the reverse of a plan you get the same quality of drawings that you get when ordering them as shown. The lettering and dimensions are not backwards. There is no chance for errors due to an upside down plan. Garlinghouse plans will save you money.

## ORDER YOUR PLANS TODAY

USE THE HANDY ORDER BLANK ATTACHED! Or just send us your name and address with the plan number from the book and the number of sets you want along with your remittance and we'll have them in the mail within 24 hours after receipt of your order. Garlinghouse plans are complete and the house can be constructed from only one set of plans. However, in most cases, it is wise to include three or four extra

sets in your order—one for the builder, a set for your city building department, a set or two for financing, if a loan is required, and of course, you will want a set for yourself to check on the construction as it progresses. Remember, you save money by purchasing your extra sets with the original set and you also avoid delays in case you need extras and have to order them later. Don't Delay! Buy Today!

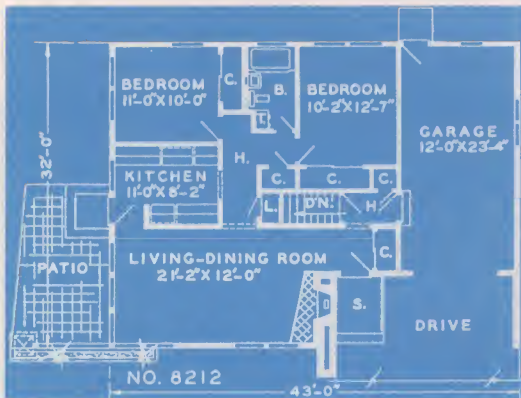

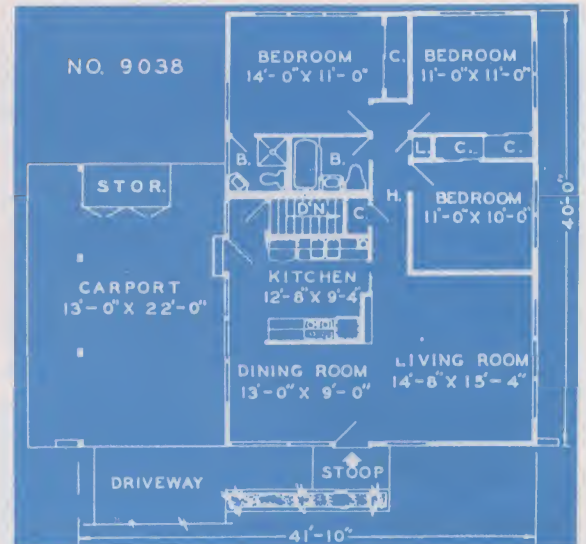

**No. 9038**—This three bedroom home would be very economical to build; because the house proper is rectangular in form. The dimensions of the house alone are 28'4" wide by 40' deep. The carport could be eliminated if desired for a small lot. There are two complete baths and a full basement which provides ample storage and utility space. *The most satisfactory way of obtaining an accurate estimate of the cost of the house that you intend to build is to purchase a set of plans and have your material dealer or contractor figure directly from those plans. Then there is no error, which is often the case if approximations are made on a square-foot basis.*

*To build without complete plans and specifications invites misunderstanding and costly errors.*

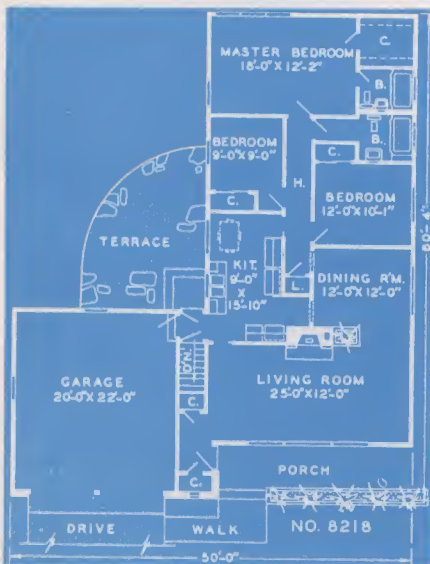

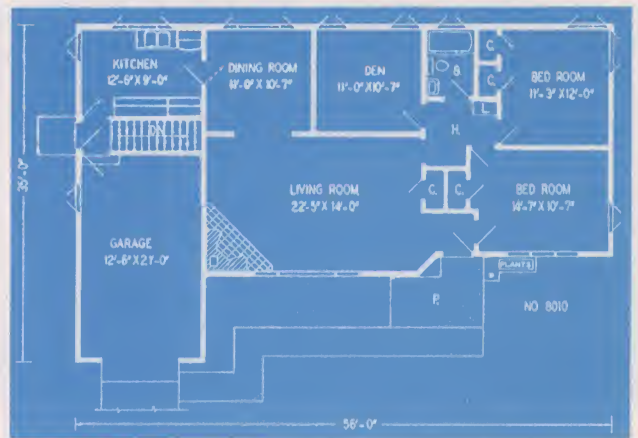

**No. 8010**—The long over-hang of the eaves, low roof lines and the skillful combination of vertical and horizontal siding and stone trim, make this a ranch home that will be outstanding in any community. Two bedrooms and a den are shown but the den could be used as a bedroom. The complete plans show a full basement.

**No. 8218**—Many times the size of the lot dictates the type of home that can be built on it. This large three bedroom home with attached garage is only 50' wide, yet it features an outstanding plan. Note the large master bedroom with private bath and walk-in closet, the easy traffic pattern between rooms plus many other highly desirable features.

**No. 8282**—The living quarters of this house are only 47 feet wide but it provides three bedrooms, an all purpose room, living-dining room and a large kitchen. There is no basement—the heating unit and water tank are located between the kitchen and fireplace. There is 1½ bath. There is a breezeway and a double garage with ample space at the rear which extends the overall width to 75 feet.

**No. 8114**—The first impression of this attention-getting ranch home is very pleasing and on closer examination you will not be disappointed. Both the exterior and interior of this plan show the results of careful planning. Note the separation of the various living areas. The den is placed away from the living area for additional privacy. This room also can be used for a bedroom.

*The most satisfactory way of obtaining an accurate estimate of the cost of the house that you intend to build is to purchase a set of plans and have your material dealer or contractor figure directly from those plans. Then there is no error, which is often the case if approximations are made on a square-foot basis.*

**No. 8098** — Three bedrooms are shown in this modern brick veneer home. All rooms have been arranged to provide easy passage between them without sacrifice of efficiency. The U-shaped kitchen is large enough to accommodate a breakfast table as indicated on the plan. If a basement is not desired the stair and hall space could be used for a utility room.

**No. 5117**—An ideal plan for a suburban setting. This ranch house is adaptable for all sections of the country and has been planned for the comfort of the owners. Stone veneer is shown across the front of the kitchen and for the entire bedroom wing, and the balance of the exterior walls are finished with siding. An interesting feature is the distinct division of the plan into sleeping, living and working areas.

**No. 8125**—This home contains many features characteristic of the present Western trend in home building. Note the effective application of color to bring out the long low lines and to accentuate the over-hang of the roof. A compact and efficient floor plan is shown. Stairway marked "dn" leads to a full basement but if the basement is not desired, it could be omitted and a utility room placed in back of the garage with entry direct from kitchen.

**No. 9568**—Here is an outstanding example of how easily a real contemporary family-living home can be obtained on a budget. The unique inner-court is the main focal point. Exposed rafter joists over the court allow plenty of natural light and ventilation to enter. The court can be entered from the living room, kitchen-family room area and garage. The kitchen is well equipped with a built-in range and oven, space for a washer and dryer and a breakfast area. The family room opens onto the rear terrace through sliding glass doors. The furnace is centrally located for maximum efficiency and minimum installation cost. Cathedral ceilings are specified throughout the house.

**No. 9554**—Here is a very attractive house with a very interesting and practical floor plan. The family room is accessible from either the kitchen or living room. The family room is sunken one short step below the main level of the house. The kitchen is well designed with the refrigerator and sink on one wall and the built-in range and oven on the other wall. Breakfast space is also provided in the kitchen. The utility room contains the furnace and water heater and space for a washer and dryer. Notice how all of the plumbing is grouped together for maximum economy in installation. All three bedrooms have a closet over eight feet wide. The master bedroom has its own bathroom complete with shower. The living room is extra large and contains a wood-burning fireplace. Adequate storage area is provided behind the double garage.

## STOP WASTING FIREPLACE HEAT build masonry around

# HEATFORM®

### WARM AIR-CIRCULATING FIREPLACE UNIT

**BEFORE YOU BUILD OR REMODEL**, obtain complete information about HEATFORM, which captures and circulates through the home a large volume of heat lost up the chimney by the ordinary fireplace. A HEATFORM fireplace is the heart of the home — no other modern convenience contributes more to comfortable living.

HEATFORM is a complete unit, hearth to flue, and a **PERFECT GUIDE** around which masonry walls are easily built, **ASSURING SMOKE-FREE OPERATION.**

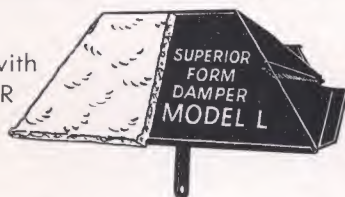

HEATFORM is a part of the fireplace. It replaces the masonry firebox lining and throat damper and saves some labor necessary in the construction of the ordinary fireplace. The small extra cost of HEATFORM is returned many times over in fuel saved and added comfort.

HEATFORM is available in five models and various sizes. **THE ARCHITECTURAL DESIGN OF THE FIREPLACE IS UNLIMITED. INSIST UPON HEATFORM.** For efficiency and durability, **IT HAS NO EQUAL!**

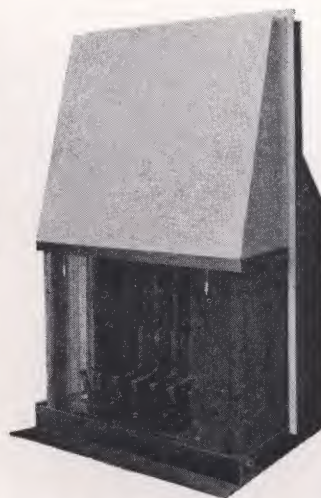

### SUPERIOR HI-FORM DAMPERS

Where the extra volume of heat captured and circulated by HEATFORM is not required, use the TIGHT-CLOSURE Superior HI-FORM DAMPER, which forms the complete throat from lintel to smoke flue, **ASSURING SMOKE-FREE OPERATION.** Made of heavy steel for lifetime service — **NO BRITTLE CAST IRON PARTS TO BREAK.**

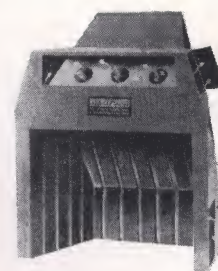

The rockwool blanket furnished with HEATFORM and HI-FORM DAMPER is the only proven method of absorbing metal expansion to prevent masonry cracking.

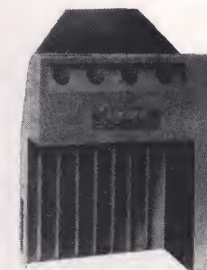

Model "L" for single opening tapered fireboxes only.

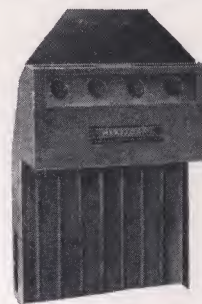

Model "MH", complete with fuel grate and copper-hammertone finish hood.

Model "A" for single opening fireplace.

Model "S" for corner fireplace with view of fire from front and either side.

Model "M" provides view of fire from front and both sides.

Model "D" for the fireplace opening through between two rooms.

Model "H" for multiple opening square fireboxes.

## Feastmaster BARBECUES

Complete indoor or outdoor barbecue units ready for EASY INSTALLATION. Handsomely styled of sturdy steel construction. Maximum simplicity of operation. Easily removed for cleaning.

MODEL OD-300 for outdoor fireplace. Adjustable grate. Charcoal-hammertone finish.

MODEL PT-500 and MODEL CT-400 for use in kitchen, patio, or outdoor pit. Turn of crank raises or lowers fire. Grill remains stationary. Charcoal or copper-hammertone non-toxic baked enamel finish. All grills are plated. Electric motor and spit available for all models.
